MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Global Positioning System/Precise Positioning Service (GPS/PPS) Security Devices Sold Foreign Military Sales (FMS) for Integration Into Host Application Equipment (HAE) Note in Letters of Offer and Acceptance (LOAs) (USASAC 04-04)

1. Reference is made to E-Change 12 to DoD 5105-38-M, Security Assistance Manual (SAMM), 3 October 2004.
2. The SAMM requires a specific note be included in all LOAs, Amendments and Modifications with certain NATO nations regarding the NAVSTAR GPS/PPS Security Devices - Hardware Security that are sold via FMS for integration into commercially sold HAE. The NAVSTAR GPS/PPS Security Devices and kits cannot be sold commercially.
3. The current DSCA guidance for processing LOAs, Amendments and Modifications with certain NATO nations for GPS/PPS Security Devices that are to be integrated into HAE at a U.S. location by a U.S. contractor is effective immediately. The new note is incorporated in Table C5.T5. of the SAMM and will be included in any future LOAs, Amendments and Modifications. This note does not alleviate the requirement for a third party transfer approval from the Department of State should the item go beyond a single transfer to one U.S. contractor.
4. The following procedures are effective immediately to meet the conditions required by the note before the GPS/PPS items in question can be transferred:
 - a. The Country Program Manager will review the request and ensure that the letter of request (LOR) from the purchaser identifies the HAE and U.S. contractor performing the integration work. The LOR must also contain assurances from the foreign government that the commercial contract with the U.S. contractor states that the PPS security devices and kits provided under this LOA will not be transferred to any other

party except to the purchaser and that the U.S. contractor will reference this FMS case in the application to State Department, Office of Defense Trade Controls (ODTC) for the export license for the HAE.

b. After LOR validation, the LOA will be prepared and will include the required DSCA note "GPS/PPS Security Devices Sold FMS for Integration Into Host Application Equipment."

c. The contractor will submit a copy of the approved export license from the U.S. State Department/ODTC for export of the HAE to the Foreign Government Purchaser, to the U.S. Army Security Assistance Command, ATTN: AMSAC-ME-CP, 5701 21st Street, Fort Belvoir VA 22060-5940.

d. Upon acceptance and implementation of the FMS case, requisitions will not be issued unless the Country Program Manager has provided a copy of the approved export license to the Central Case Manager.

5. This policy is not retroactive --- there is no need to do Modifications or Amendments to add this note to existing cases. The DSCA will return LOAs, Amendments and Modifications currently on hold for incorporation of this note before countersignature.

6. Point of contact is Maria E. Patterson, 703-806-2280 or DSN 656-2280, email: Maria.Patterson@usasac.army.mil
